

# PCO Product News

PCO offers upgrades and additional options to the ABB Remote Hardened Console. PCO's design of the unit features a new horizontal keyboard and an industrial finish. No longer is the keypad vertical but instead out in front like a standard keyboard. Also, the unit is available in a NEMA enclosure with a 19" LCD instead of the smaller CRT found in the original. For more Information call or e-mail PCO at 281-421-1321 or at [sales@pco2.com](mailto:sales@pco2.com).
