Going Dim?

Before

After

Is it almost lights out for your Honeywell VRX-100 controllers? PCO is here to help brighten your day. In our years of service we have seen many dimly lit controllers, which is a common sign of old age. In our efforts to keep your equipment in perfect condition we perform repairs to bring your VRX-100 controllers back to life and brighter than before. When a repair is necessary, our experienced technicians will quickly determine the problem and you will be back on your feet in no time. If a replacement is in order, PCO will guide you through the way of finding the right controller for your needs. Give us a call at 281-421-1321 or e-mail sales@pco2.com and put our expertise to work for you!
